

Digga's new heavy duty 72" brush & tree cutter is the ultimate attachment for clearing & shredding thick bush & scrub. Working in conjunction with the heavy duty push bar, the front hood opens up exposing the 3/4" blades past the guards, enabling close up axe-like cuts to remove trees up to 7" (180mm) in diameter.

For the ultimate in clearing, carbide teeth have been added to the spinning disc to effectively remove stumps and create a clear path. The Rotary Axe boasts a world leading design as well as quality construction for increased productivity, reliability, and ease of maintenance.

FEATURES

- PROTECTED DIRECT DRIVE SYSTEM FOR SMOOTHER, QUIETER OPERATION
- A 72" CUTTING WIDTH WITH ALTERNATING BEVEL BLADE DESIGN - PROVIDING A DEEP PENETRATING, AXE-LIKE SELF-CLEARING CUT. BLADES ARE MADE OF 3/4" THICK HIGH GRADE STEEL WITH A REVERSIBLE DESIGN FOR ADDED BLADE LIFE
- STEEL 'CLEAN DECK' DESIGN HELPS TO CLEAR DEBRIS. EASIER TO CLEAN & MAINTAIN
- HIGHLY VISIBLE PRESSURE GAUGE PREVENTS EXCESSIVE STALLING WHICH WOULD OTHERWISE CAUSE OVERHEATING, PROVIDING OPERATOR FEEDBACK TO HELP MAINTAIN PEAK PERFORMANCE
- HEAVY DUTY & LOW CENTRE OF GRAVITY FOR BETTER STABILITY ON HILLSIDES
- STUMP GRINDING CARBIDE TEETH INCREASE SHREDDING PERFORMANCE & FACILITATE STUMP REMOVAL

SPECIFICATIONS

Machine Suitability	HF Skid Steer
Machine Lift Capacity (minimum)	1 Tonne
Recommended Flow	115-170lpm
Overall Height	715mm
Overall Width	1966mm
Overall Length	2174mm
Cutting Width	1829mm
Min. cutting height wt skids on the ground	80mm
Min. stump grinding height (above ground)	10mm
Cutting Capacity (max tree diameter)	180mm
Deck Thickness	6mm
Maximum Pressure (BAR)	275
Recommended Flow (LPM)	115-170
Skid Steer Lift Capacity (min)	1000kg
Weight	911kg
Machine Suitability	Multifit
Blade Thickness	20mm
