TO SUIT KUBOTA BX2350
& JOHN DEERE 4049M TRACTOR

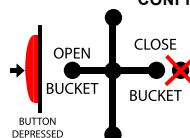

DIGGA

STD JOYSTICK
CONFIGURATION

3RD FUNCTION
CONFIGURATION

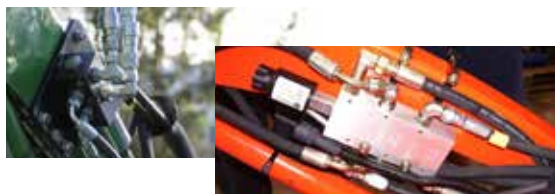

- EASY TO SET UP & OPERATE
- VALVE SYSTEM CONVENIENTLY TUCKED INSIDE THE BOOM
- INNOVATIVE DESIGN FOR FAST REMOVAL OF BUCKET OR COMPLETE LOADER ARM
- LOCK VALVE INCLUDED TO MAINTAIN BUCKET CLAM HYDRAULIC PRESSURE

USE A 4-IN-1 BUCKET OR GRAPPLE ON YOUR JOHN DEERE 4049M OR KUBOTA BX2350 TRACTOR WITH A 3RD FUNCTION VALVE KIT!

ADD MORE FUNCTIONS TO YOUR HYDRAULIC SYSTEM AT THE PRESS OF A BUTTON

With a thumb-operated push button, you can now easily operate the opening and closing function of a 4-in-1 bucket as well as raise/lower, and dump/curl.

DEVELOPED IN-HOUSE BY DIGGA

Developed in-house by Digga specifically for John Deere 4049M & Kubota BX2350 tractors with a flow of less than 60 litres per minute, the Plug'n'Go Third Function Kit taps into the existing hydraulic circuit of the tractor and allows the use of a 'third function' such as a grapple or 4-in-1 bucket.

AUSTRALIAN MADE QUALITY

Our Third Function Kits for John Deere & Kubota tractors are Australian made from quality materials. Digga is a proud Australian manufacturer committed to keeping jobs in the country.
